Testimony AGAINST HB 5804 & HB 5959  
House Commerce Standing Committee

Dear Esteemed Michigan House Members,

Vote NO on HB 5804 and HB 5959.

Two things are going on here:

- 1) Greed, for profit and control over others.
- 2) Intolerance of Natural Rights.

The natural rights of American citizens who hold proper moral beliefs about sexuality and marriage cannot coexist with the homosexual movement. Michigan will be putting its citizens at risk if they bow to it.

“You’re never done with it. There are an infinite amount of

permutations that people can come up with and there is no conceivable way of satisfying everyone because many of these people are unstable and looking for something to validate their sense of persecution and general state of unhappiness.

It never ends. Not until we roll back the madness and stop taking these incessant demands from people with identity problems seriously..” ~Daniel Greenfield, Frontpage Magazine

Do you really want to open Michigan’s door to this?  
Please vote NO on both bills.
